Tinsukia, Assam

SUMMARY

Experienced Software Developer with expertise in Java, Microservices, and Cloud-based solutions. Adept at designing scalable systems, optimizing performance, and ensuring secure API development. Passionate about delivering high-quality software solutions aligned with business needs.

EXPERIENCE

Senior Software Developer 08/2024 - Present
Lentra

- Integrated the Privilege Card feature, increasing customer engagement by 20% and boosting transaction volume by 25%, with over 50,000+ customers enrolling within the first 6 months. Implemented automated eligibility checks and personalized rewards, improving customer retention by 15%.
- Upgraded the existing project from Java 8 to Java 17, improving application performance, reducing memory consumption by 20%, and enhancing security with the latest JVM features. Refactored code to ensure compatibility, leading to faster execution times and improved maintainability.
- Streamlined data flow between the Loan Origination System (LOS) and Loan Management System (LMS), reducing data processing time by 40% and improving loan approval efficiency by 30%. Implemented automated data synchronization, eliminating manual interventions and ensuring real-time updates for 10,000+ loan applications per month.

Software Developer 01/2022 - 07/2024
Lentra

- Developed and maintained RESTful APIs using Spring Boot and MongoDB.
- Improved security by addressing VAPT vulnerabilities and performing penetration testing.
- Integrated the credit card module with the existing project to provide credit cards to eligible customers, increasing customer engagement by 30% and boosting revenue by 20% through seamless application processing and automated eligibility checks, handling 10,000+ applications per month.

EDUCATION

Mechanical 08/2016 - 07/2020
Lakshmi Narain College of Technology - Bachelor of Engineering
CGPA: **7.76**

Science 03/2013 - 04/2015
R.D. Junior College - High School
Score: **83.6%**

CERTIFICATES

MongoDB Developer & Administrator Certification **Simplilearn**

Extra Miller Award for Excellence
Lentra

Spot Award for Outstanding Client Delivery **Lentra**

TECHNICAL SKILLS

Java	Advanced
Amazon Web Services (AWS)	Intermediate
Microservice	Advanced
Spring Boot	Advanced
React JS	Intermediate
MongoDB	Advanced
BurpSuite	Intermediate

PROJECTS

Password Manager

- Built with Java-based Microservices API Gateway
- Frontend:** React + Vite
- Database:** MongoDB
- Hosting:** Oracle Cloud Infrastructure (OCI)

SOFT SKILLS

Problem Solving
Collaboration & Teamwork
Adaptability & Continuous Learning
Time Management
